IMPLEMENTATION OF *project name*

CASE STUDY: *study area*

A PROJECT REPORT

Submitted

In partial fulfilment of the requirement for the award of

DIPLOMA

IN

SOFTWARE ENGINEERING

(DSE)

BY

Candidate's name

Under the guidance of

Mr. *Lecturer's name*

(Supervisor)

FACULTY OF INFORMATION AND COMMUNICATION TECHNOLOGY

ISBAT LOGO

ISBAT University-City Campus

P.O Box 8383, Conrad Plaza, Kampala

- Declaration
- Dedication
- BONA-FIDE CERTIFICATE
- Approval
- Acknowledgment
- Table of Contents
- List of Figures
- List of Acronyms and Abbreviations
- Abstract
- Chapter One - Introduction
    * Introduction
    * Background of the study
    * Problem Statement
    * Main Objective
    * Specific Objective
    * Scope of the study
    * Significance of the study
    * Limitations of the study
- Chapter Two - System Analysis
    * Introduction
    * Existing system
    * Feasibility study
        * Types of feasibility studies
    * Information and database management
    * Requirement Specifications
        * Software Requirement
        * Hardware Requirement
    * Operational Environment
    * Conclusion
- Chapter Three - System Design
    * Introduction

        * Architecture design
        * Module Descriptions
        * Flow Chart
        * Data Flow Diagrams
        * Database Design
        * E-R Diagram
        * Conclusion

- Chapter Four - System Development
        * Introduction
        * Implementation Plan
                * Input design
                * Output design
        * Coding
        * Conclusion

- Chapter Five - Discussion, Recommendation and Conclusion
        * Introduction
        * Discussion
                * Comparison
                * Opportunities
                * Challenges
                * Development
        * Conclusion
        * Summary
        * References / Bibliography
        * Appendix
